

Add these surrounds to compatible Klipsch sound bars for an instant home theater experience. Plug, play and enjoy. After adding SURROUND 3 speakers to your Bar 48, the sound bar will automatically decode Dolby Digital and DTS 5.1 audio and provide discrete surround sound.

### EASY PLUG AND PLAY SET UP

Crafted using high-quality wood materials, the SURROUND 3 speakers are designed to quickly wirelessly connect to compatible Klipsch sound bars. No extra wiring needed. Included with SURROUND 3 speakers is a specially designed and pre-paired USB transmitter that slots and conceals behind the sound bar's wood end cap, making setup truly a breeze.

### LEGENDARY KLIPSCH ACOUSTICS

One 3" full range driver per speaker surround you with clear vocals and dynamic soundtracks.

### PLACEMENT FLEXIBILITY

Place these surround speakers on a tabletop, use speaker mounts or mount to a wall with the convenient 1/4-20" inserts.
