### Best sound packed tightly!

Choose from the wide range of Box Design components according your needs. All components will be ready for "plug & play" , with all internal connections including power cables done. There is only one IEC plug on the backside, that makes it easy to implement this professional 19" rack audio system.

Input and output cables (antenna, USB, ...) in 0,5m basic lengths come with each Pro Rack.

Different cable lengths can be specified, if needed
