Power Box S3 Phono

Clean power for your phono setup

colour options:

- **NEW** all in one power supply for your phono setup

- **NEW** compatible with all 18V Phono Boxes

- **NEW** compatible with all 15V DC turntables

  (except RPM9 and higher, X8 and higher, Signature 10/12)

- Ultra stable & clean power

- Low noise power output

- Linear voltage regulation

- Low ESR capacitors

- Rigid aluminium casing protects against interference

- Available in black or silver

- Made in Europe

Input power supply: 18V / 1000mA

Output voltage/ripple: 1 x 15V ±0,5%

Output voltage/ripple: 1 x 18V ± 0,5%

Output current: both outputs combined max. 1000 mA

**Dimension (W x D x H):** 103 x 37 x 106 mm

Weight: 370g without power supply

Power Box S3 Phono - Double power for turntable and phono preamp!

Power Box S3 Phono is a very efficient and flexible power filter for your turntable and phono preamp. By placing the power supply outside of the main component, potential noise and audio signal contamination is avoided. Clean energy contributes significantly to the sound quality.

Its two outputs are specifically engineered to power Pro-Ject turntables and phono preamps. The sophisticated DC filtration can have a dramatic impact on the sound quality. In addition to the sound improvements, Power Box S3 Phono also offers its users a cleaner cable soluti-on avoiding PSU and cable mess.
